1 Introduction

PROKO (Small Group Guidance Support Application) has been developed for use of the Faculty of Computer science and engineering. The idea of the application is to unify and streamline the faculty's small group guidance by digitizing the guidance cards and reporting tools. The person in charge of small group control at the Faculty of Computer science and engineering maintains the management of user IDs and creates IDs for all tutors and their supervisors before the start of the tutoring season. PROKO is designed to scale to different screen sizes, and is available on PC, Android, and iOS mobile devices. It is a good idea to do the guidance session on a mobile phone. Using the group guidance base records, pdf printing etc. might be easier with your computer. This document describes how to use the PROKO application in a browser.

2 Logging in

- The application can be found from <https://proko oulu.fi>
- The faculty will create and give your usernames for the application.
- After you have received your username and password, you can log in by filling in the login form.
- **Change your password the first time you log in to the application.**
- **If you misspell your username or password 5 times, the application will prevent further tries for 20 minutes, after 20 mins you can try again.**
- **If you forget your password, contact prokohallinta@oulu.fi**

UNIVERSITY
OF OULU

Login

Username

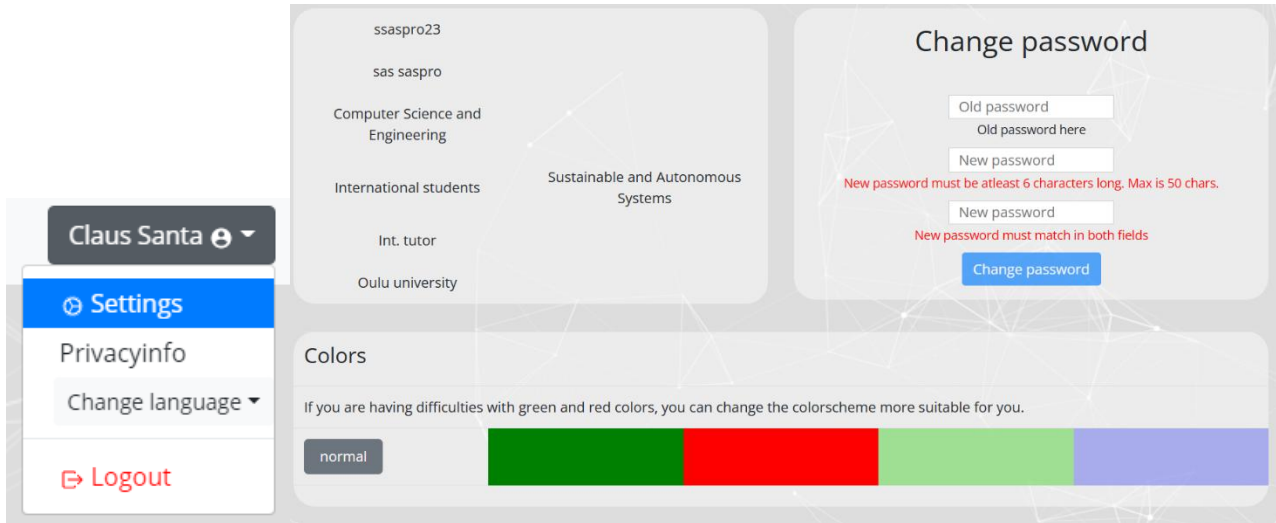

Password

Login

If you are having trouble while loggin in, please contact the person controlling the PROKO - application. (prokohallinta@oulu.fi).

3 Settings

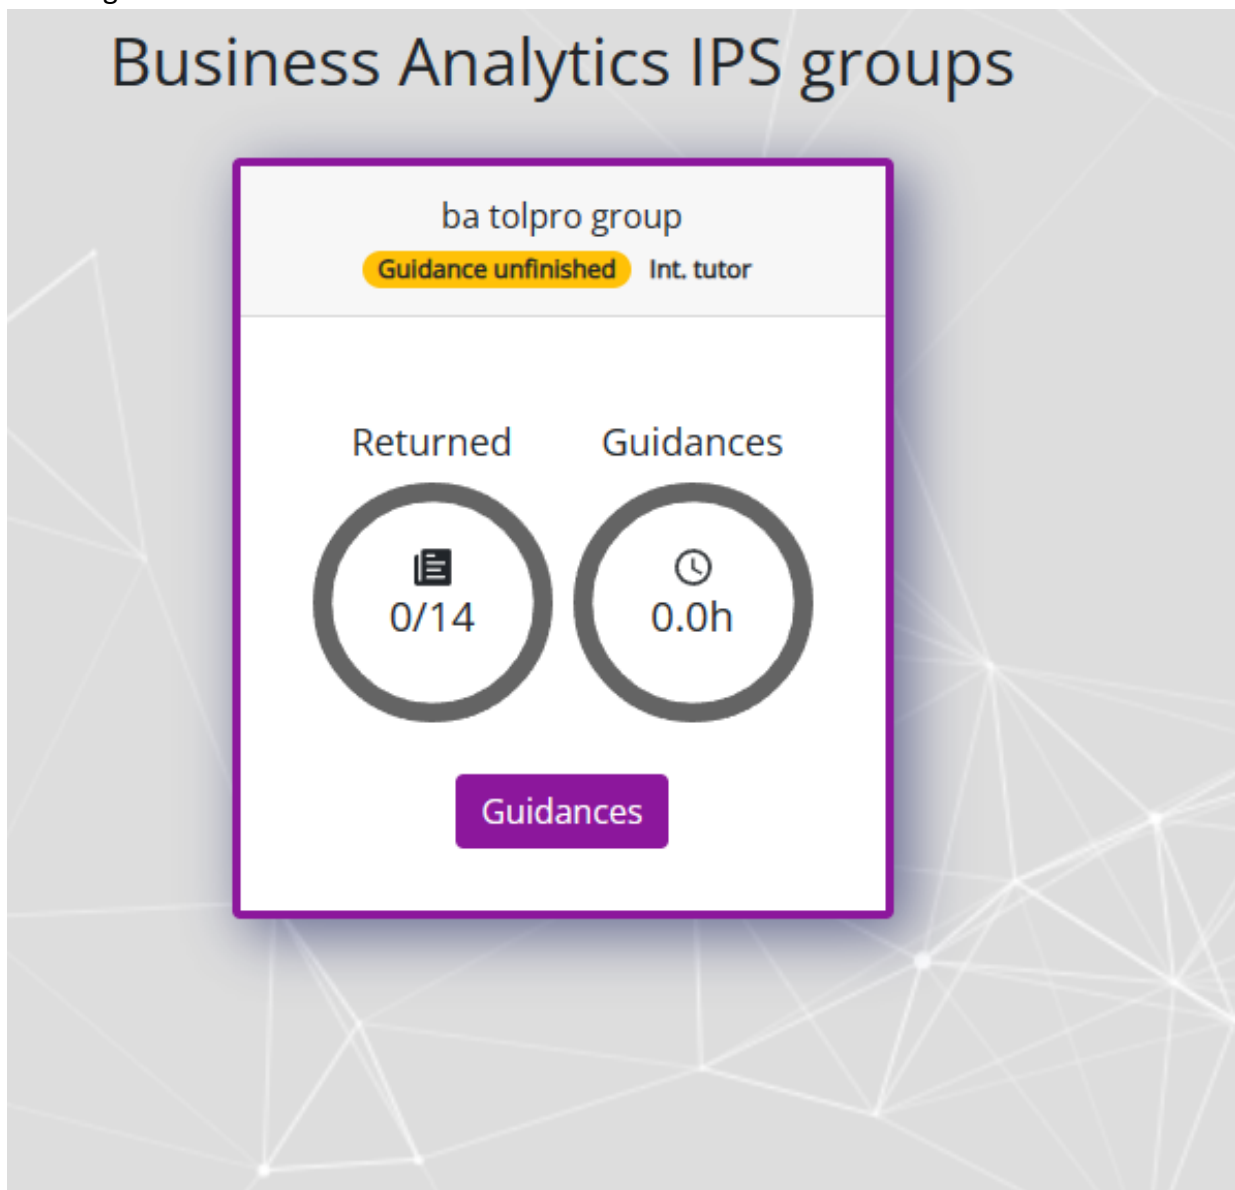

- By pressing dropdown **Claus Santa** -button.
- Opens menu from where you get to the Settings page.

- From the settings page, you can see your personal info, number of groups and change password.
- If you are having difficulties distinguishing green and red colors, you can try the colors setting if it helps. There are only two settings available, normal, and adjusted. Toggle settings by pressing the button in the Colors section.
- Language settings (Change language) and Privacyinfo see part 8

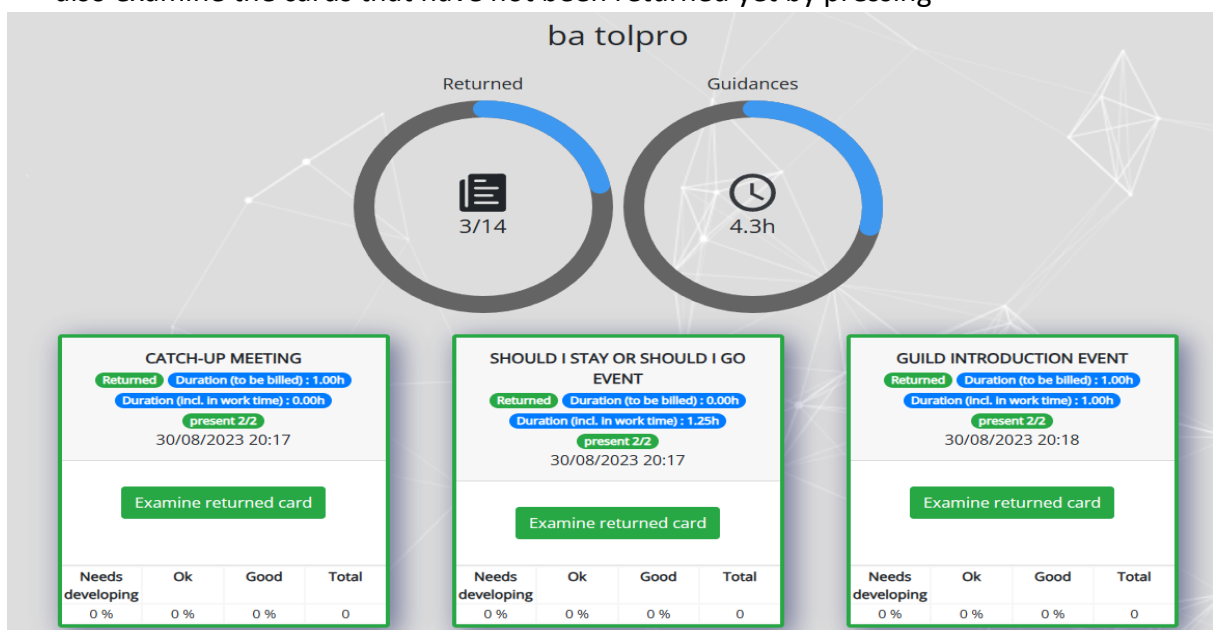

4 Monitoring all tutors

- You can monitor the progress of all the tutors in your degree program, in this case you see all the groups in the **Groups** tab.
- The two progress bars tell how many guidance cards the tutor has in total, how many cards the tutor has returned, and how many hours of guidance the tutor has given to students.
- You can see if the tutor has finished the guidance work from **“Guidance finished”** and **“Guidance unfinished”** labels under the name.
- The **“Guidance finished”** label appears when the tutor has given 10 hours or more of guidance and returned all the cards created.

5 Monitoring individual tutor

- You can monitor the progress of an individual tutor by pressing **Guidances** button.
- With the opening view you can see all the cards the tutor has created, and the cards the tutor has returned.
- You can examine the returned card by pressing **Examine returned card** -button and you can also examine the cards that have not been returned yet by pressing **Examine card**

- You can see the duration(s) of the guidance session, how many students were present and the missing students at the bottom of the card, in red text.
- The cards are displaying two different duration information based on selected billing method. Options are to bill the university separately or include the hours in your university work salary (for tutors who are also working in the university).
- You can examine the returned card by pressing **Examine returned card** -button.
- From the returned card, you can see the subject of the card, the guidance place, time, mode, and duration.
- You can see the attended students.
- Topics covered in the session are marked as green. Topics not yet covered for one reason, or another are marked as red.
- Additional topics.
- Question and wishes from students as well as homework.

SUBJECT: GET TO KNOW YOUR OWN GROUP AND UNIVERSITY		09/08/2021, 13:00
Guidance location: school and mode:		Studying ☐ Eating ☐ Exercising ☐ Playing ☒ Other ☐
Present	Opiskelija Ykkönen	
Absent	Opiskelija Kakkonen	
Present	Opiskelija Kolmonen	

Topic	Implementation proposal / My notes
Grouping	
Presentation of Student tutor and the tutor activities	
Presentation of group members	
Study	
Teacher Tutor	Tell about Teacher Tutor activities and communication practices.
User IDs	Tell about how to get the IDs and what students need them for. Office365, @student oulu.fi, panoulu, eduroam.
Student cards and benefits, 24/7	Show e.g. own student card and tell them how to get one.
Student financial aid , student loan, credit points	Explain, where to find information. Encourage students to take care of things in time.
Tuudo: map, class schedule, courses	Let's install Tuudo and get to know it.
Communication and information	
WhatsApp, Telegram, email, Tuudo, social media channels, mailing lists, IRC, Slack	Let's exchange contact information and create the necessary groups. Let's discuss about the other channels and, if necessary, return to them later. (Also Teacher Tutor)
Event calendars	Let's go together and check out the event calendar for the selected organization.

6 Students tab

- You can get to Students tab by pressing **“Students”** -button in the navigation bar.
- You can examine the info of tutors or their students by clicking on an individual tutor or by clicking **“Open all students”** button, which will open all the student rows under the tutors.
- You can search student or tutor by name in the search bar. The results remaining will contain the searched name either in tutors name or in one of tutor’s student names.
- **“Overview”** button lets you see information in a different view and to download PDF-file containing the tutoring information.

The screenshot shows the 'International students' tab. At the top, there's a navigation bar with categories like Computer Science and Engineering, Biomedical Engineering, Software Engineering and Information Systems, and DICE-CSE. Below this, there's a search bar labeled 'Search student or tutor by name' and an 'Open all students' button. The main content area displays a list of tutors. Each tutor entry includes their name, role (Int. tutor), the number of returned cards, duration of sessions, and an 'Overview' button.

Tutor Name	Role	Returned	Duration (to be billed)	Duration (incl. in work time)
Mufrad Mahmud	Int. tutor	Returned: 1	Duration (to be billed): 2.00 h	Duration (incl. in work time): 0.00 h
Abu Roman	Int. tutor	Returned: 0	Duration (to be billed): 0.00 h	Duration (incl. in work time): 0.00 h

- You can see tutor’s basic info and the summary of tutor’s **“smiley face”** feedback **from all the tutors returned guidance sessions**.
- You can see the participation of tutor’s students to guidance sessions.

Test Tutor	kummi	Returned: 2	Accumulation: 2.00 h	Cards Tot. 8
All feedbacks:	Needs developing: 0.00 %, Ok: 40.00 %, Good: 60.00 %, Amount: 5			
Opiskelija Ykkönen	Participated: 2/2			
Opiskelija Kakkonen	Participated: 0/2			
Opiskelija Kolmonen	Participated: 2/2			

- You can find out in which guidance sessions individual students have participated, by clicking on the student’s name.
- Subject means the name of the guidance card, State, if the card is returned or not, Presence, if the student has attended the session.

- If the guidance session has not been returned yet, in the place of presence is - .
- The subject is also a link to the card, so if you need, you can examine the card further. (See Part 5)

7 The Edits tab

The screenshot shows the top navigation bar with 'Groups', 'Students', and 'Edits' tabs. The 'Edits' tab is active. On the right, there is a 'renew' button, 'Session 20 min', and a user profile 'Claus Santa'. Below the navigation bar, there are two cards. The first card is titled 'GUILD AND HOBBIES' and has 'Edits: 2'. The second card is titled 'GET TO KNOW YOUR OWN GROUP AND UNIVERSITY' and has 'Edits: 1'.

- A card ends up in the **“Edits”**-tab, if the tutor decides to give feedback to **“What did you change”**-field while editing the card.
- The cards are grouped by their name.
- When you click the card’s name, the edit fields become visible.
- Max length of an edit field is 5000 characters.
- When you click **“To card”**-link, you get to the examine card view and you see the card in detail, including the student feedbacks (See Part 5)

The screenshot shows the same interface as above, but with the edit fields expanded. The first card, 'GUILD AND HOBBIES', has a text field containing the text 'Just editing' repeated 1000 times, followed by 'Test Tutor' and a 'To card' link. The second card, 'GET TO KNOW YOUR OWN GROUP AND UNIVERSITY', has a text field containing the text 'Just editing' repeated 1000 times, followed by 'Test Tutor2' and a 'To card' link.

8 Group base records / Generate pdf page

- Accessed through the students page by clicking the “overview” button.
- On this page you can see the tutoring progress and the returned cards with their respective durations and subjects gone through.
- It lets you generate a PDF file with all the same information. The idea is to use it as a tool to help with billing. Tutors can also generate the files by themselves.

Overview

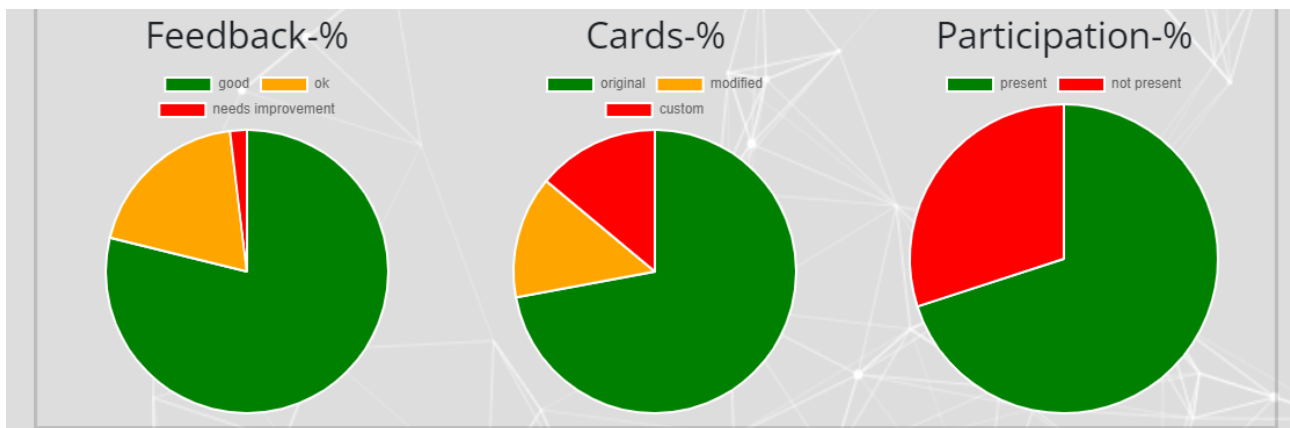

From the overview tab you can view yearly statistics by degree programme on tutor progress.

"Guidances"-table displays guidance session return dates. Icon on the timeline depends if the guidance session card was original, modified or custom.

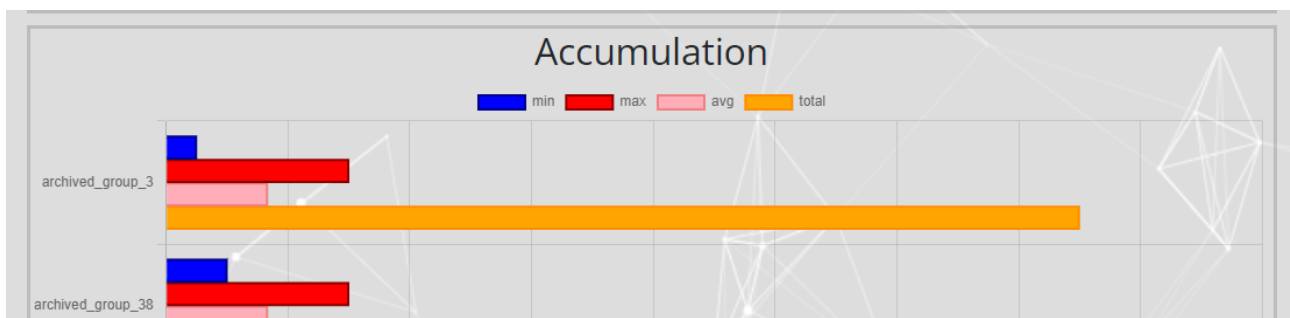

Tutor information is removed from previous years archives. Tutors name is replaced with "archived_group_<number>" text. Hovering over the icon displays guidance session name.

"Feedback-%"-chart displays relative amount of feedback left on guidance sessions. Hovering over the chart displays actual number of feedbacks.

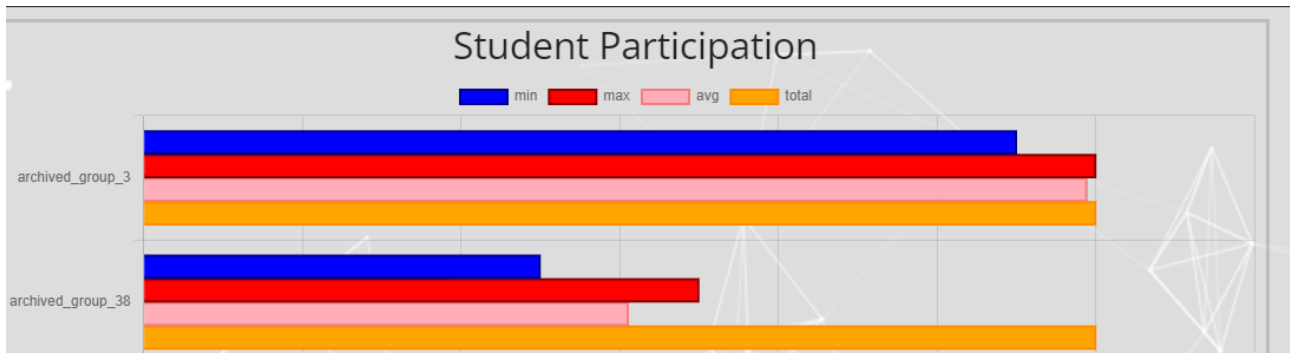

"Cards-%"-chart displays relative amount of returned card types returned. Hovering over the chart displays actual number of returned cards.

"Participation-%"-chart displays participation rate of students in group sessions.

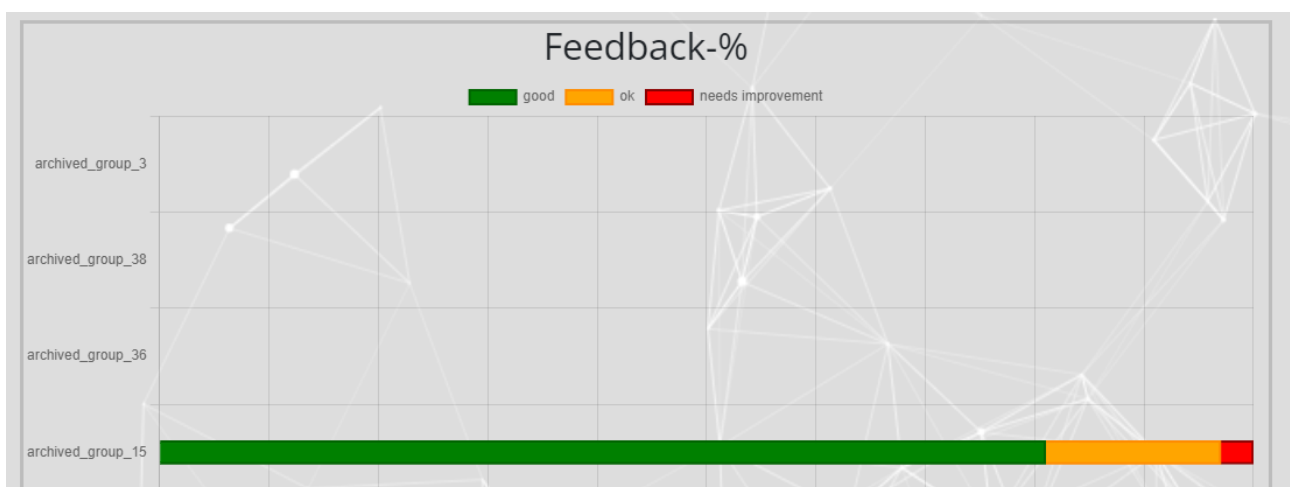

"Accumulation"-table displays group session durations per individual tutor.

- Min: Shortest guidance session.
- Max: Longest guidance session.
- Avg: Average duration for a guidance session.
- Total: Total duration of guidance sessions.

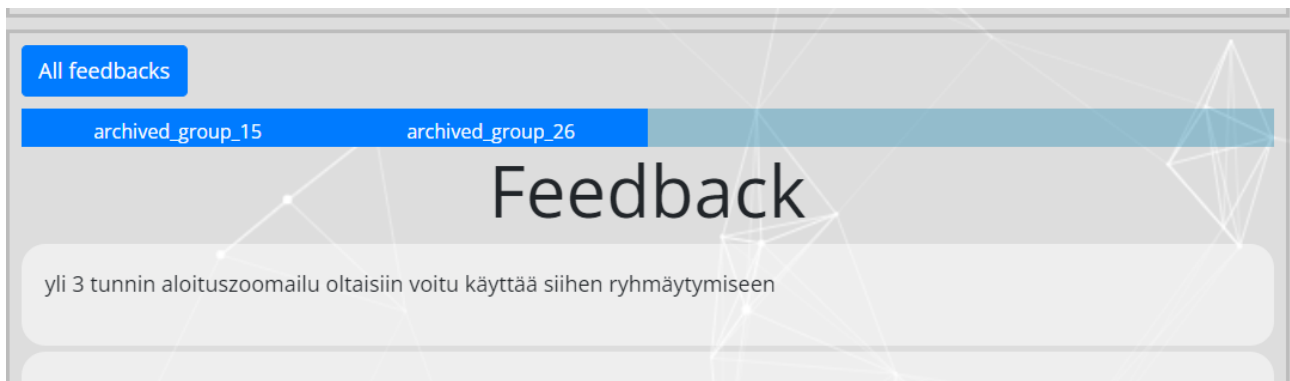

"Student participation"- table displays tutors student participation in a guidance session.

- Min: Minimum number of students present.
- Max: Maximum number of students present.
- Avg: Average number of students present.
- Total: Number of students in tutors group.

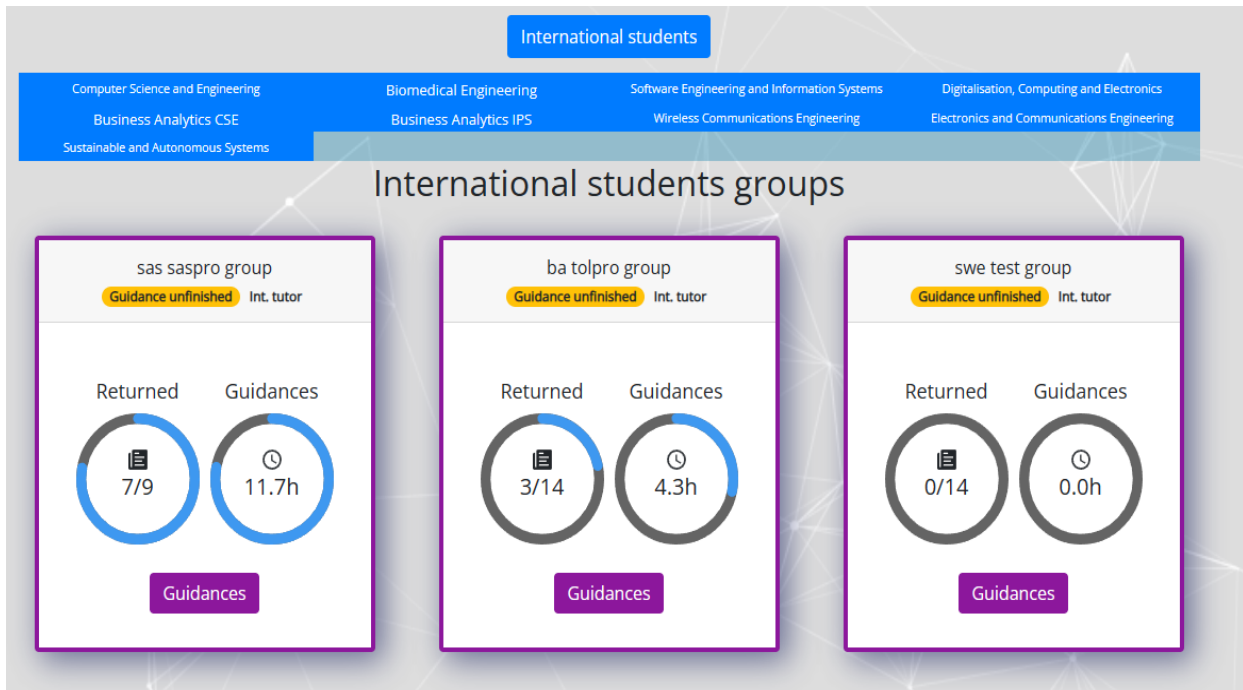

"Feedback-%"-chart displays guidance session feedback per individual tutor. Hovering over a bar display total number of feedbacks left by students.

Textual feedback left on guidance sessions can be viewed per tutor. All feedback can be displayed by pressing "All feedbacks" button

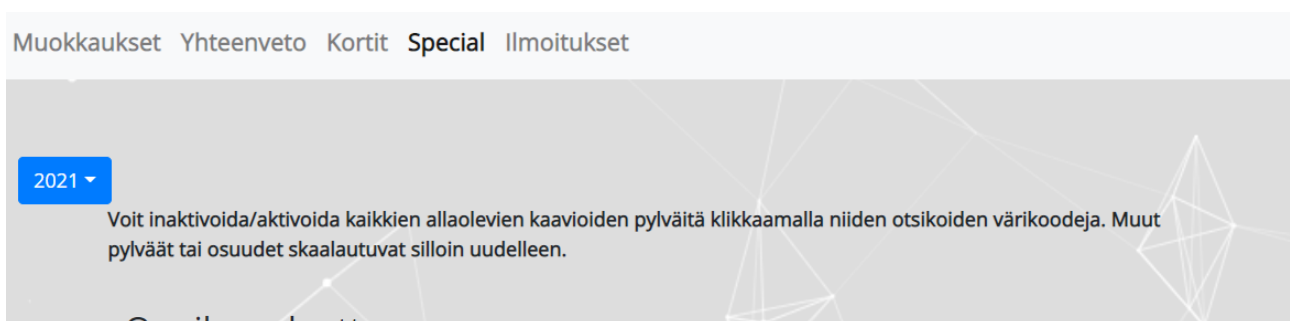

10 Dean view

In addition to normal features, dean roles can view other degree programmes by pressing on a degree program selection button.

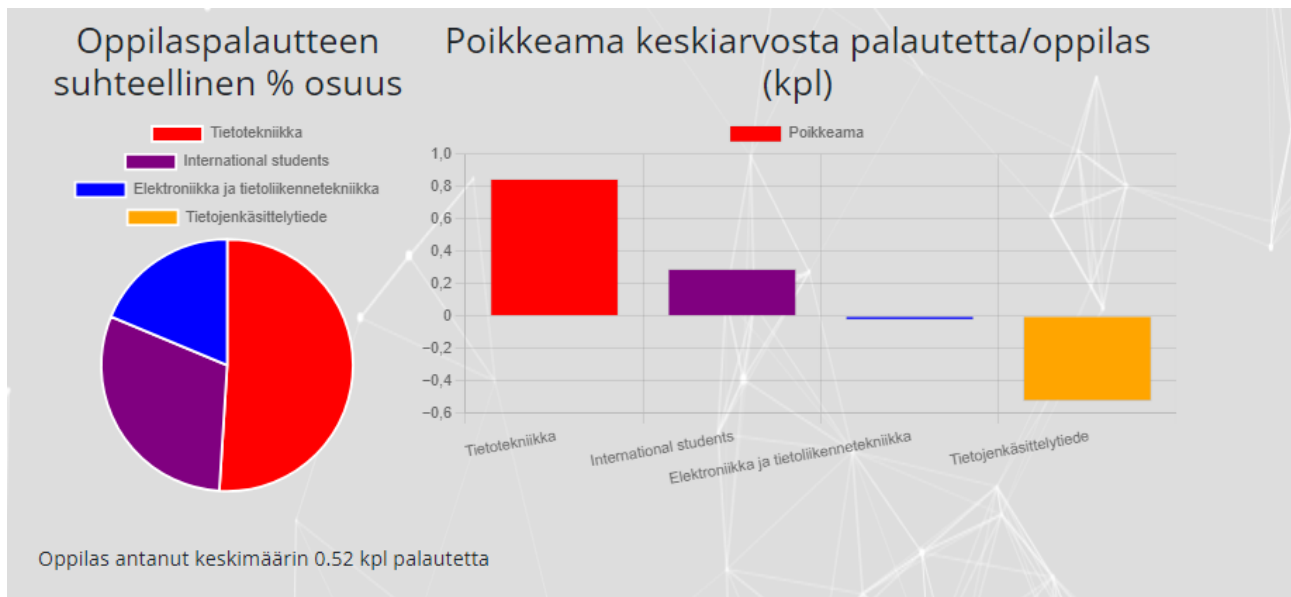

Special tab

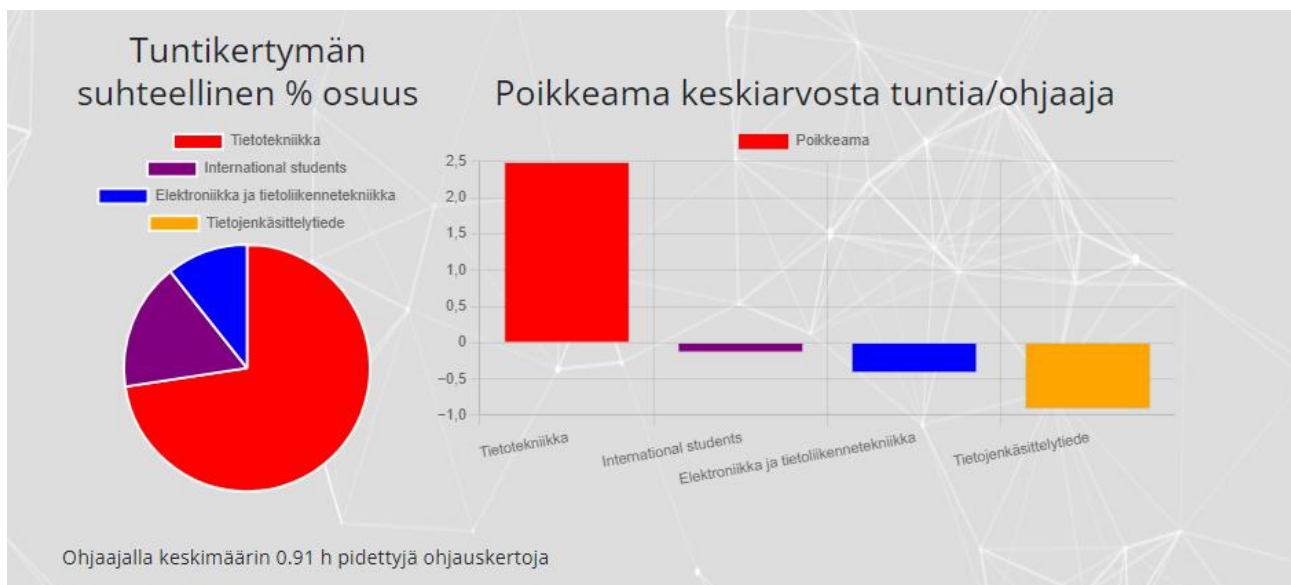

Currently this page is only in Finnish.

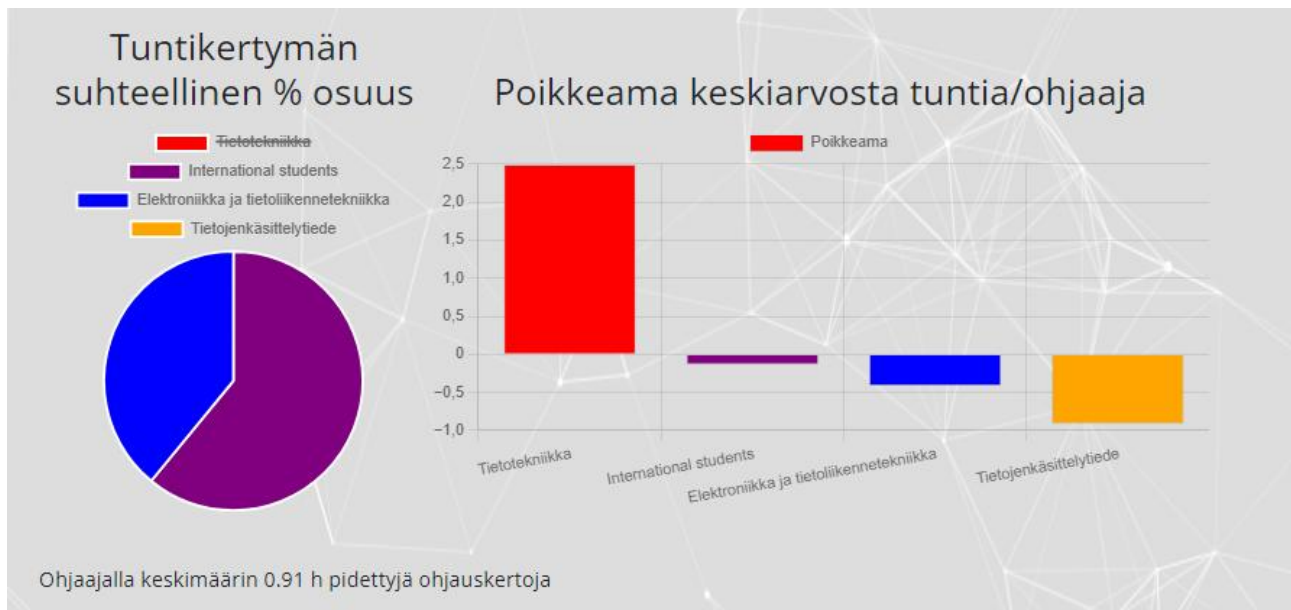

Year to view can be selected from the dropdown menu on top of the page. Active class year is selected by default.

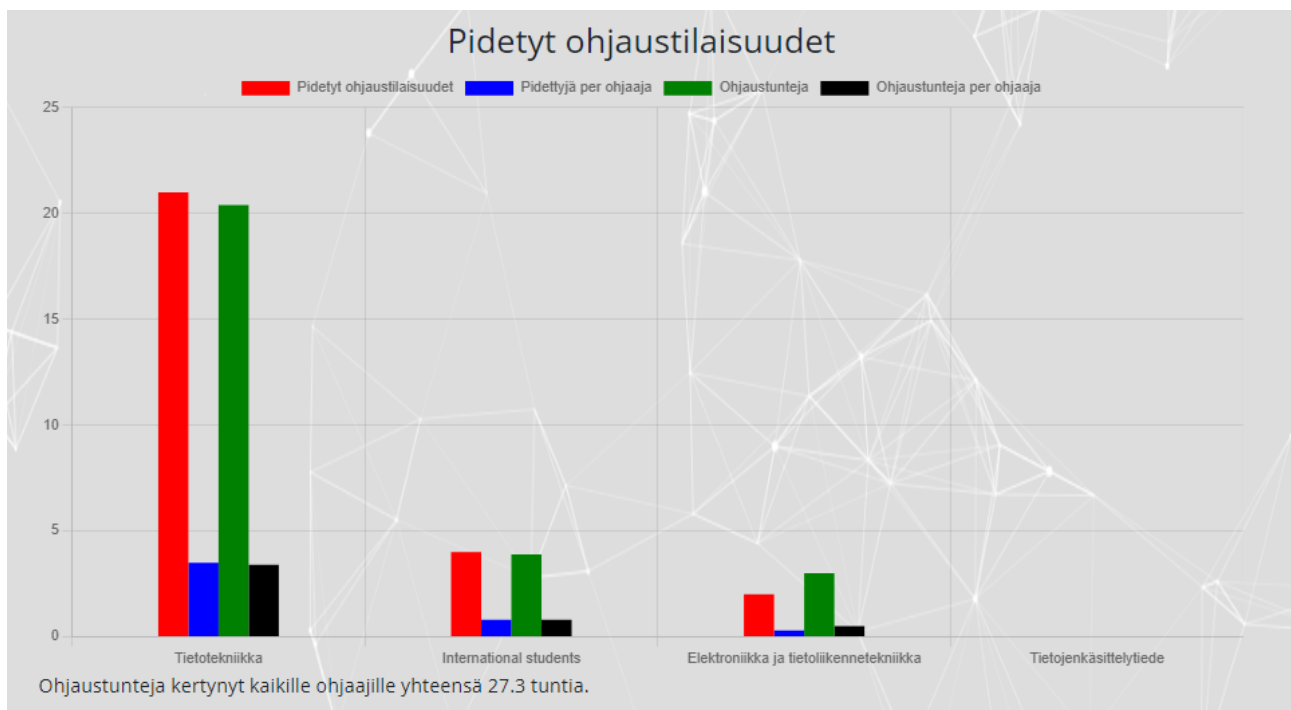

In the pie chart, you can see student feedback activity per degree programme. The percentages are calculated in relation to student count. The deviation depicts the amount of feedback per student compared to the average. If value is positive, students have given more feedback than the average. With negative values, students have given less feedback than the average.

Hourly accumulation piechart shows how guidance session durations are distributed between degree programs. Deviation chart shows how degree program's accumulation exceed or fall below the average accumulated hours.

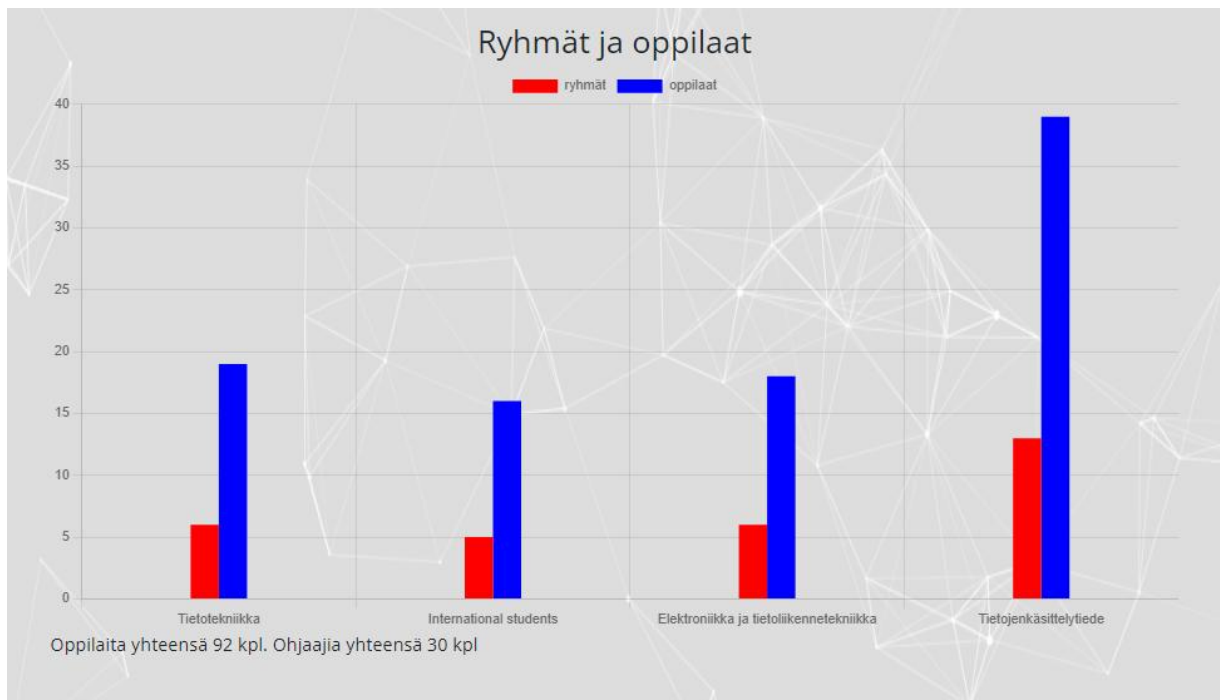

You can hide chart data by pressing data legend at the top of the.  .

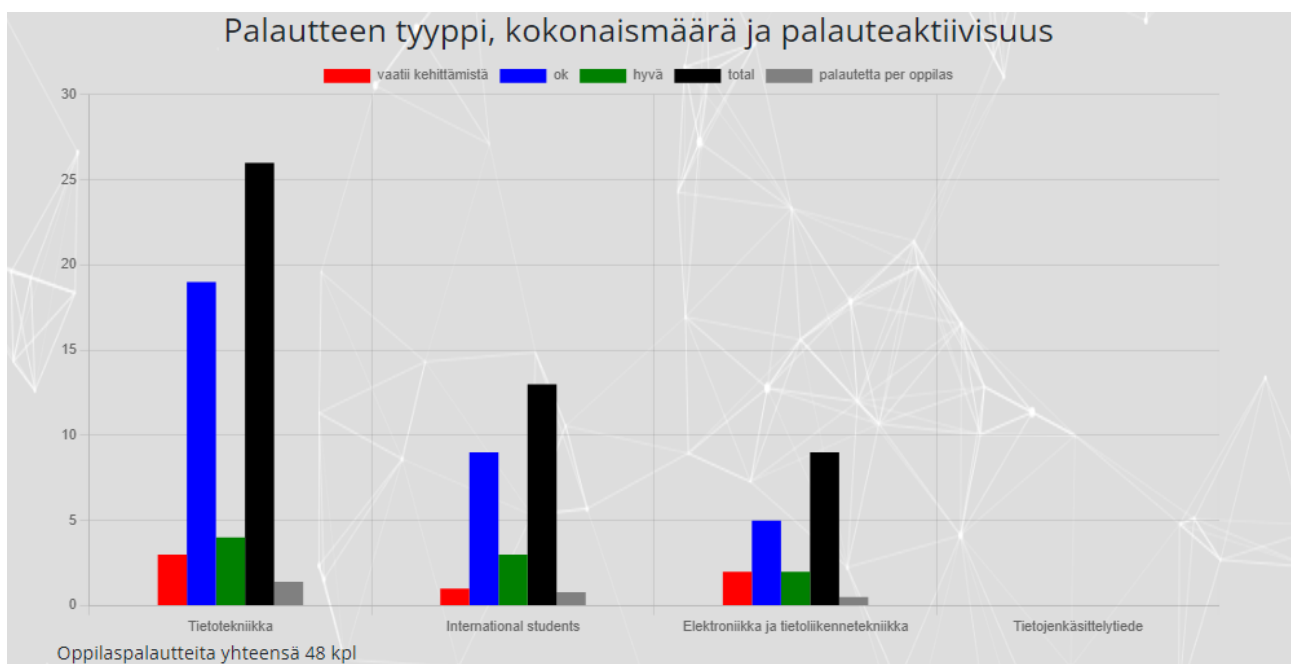

Held guidance sessions chart shows the following data points:

- Held guidance sessions
- Avg guidance sessions per tutor
- Total guidance duration
- Average total guidance per tutor

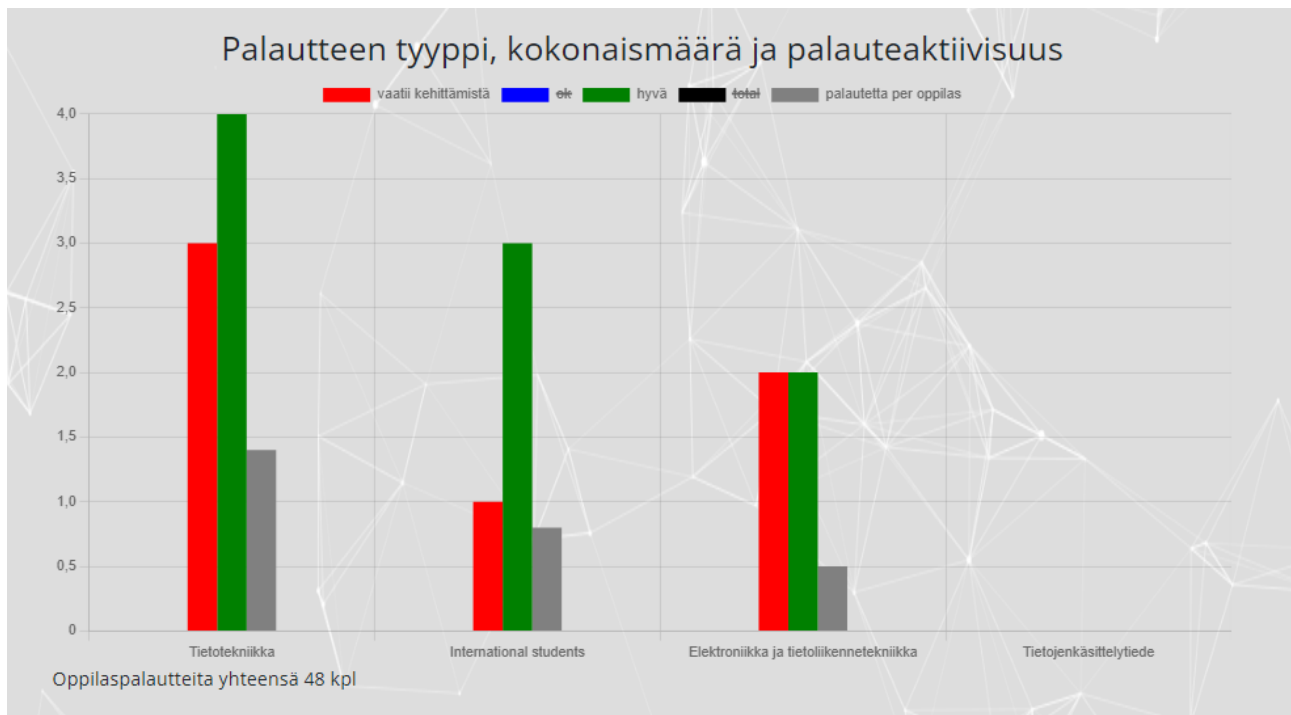

Number of groups and number of students.

Feedback chart

- Needs developing
- Ok
- Good
- Total
- Average number of feedbacks given by student

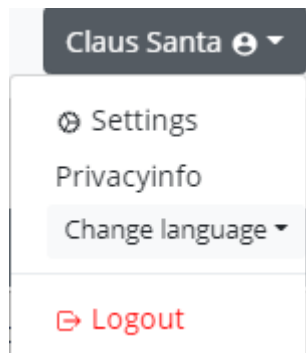

You can hide datapoints by pressing on the data point legend.

11 Announcements

Sender	Message
sas saspro 8/21/2023, 4:29:13 PM	Message
<button>Remove</button>	Visibility: all, International students
e dekaani ★★★ Super tutor 8/18/2023, 1:53:58 PM	dekaani msg
Add new announcement to the message board. 0 / 500 The announcement written here is visible to other student tutors and supervisors.	

At the **“Announcements”** page, you can make announcements concerning matters related to student tutoring. The announcements are visible to other student tutors and/or super tutors. You can remove your own announcement by clicking **“Remove”** button. At the right side of the **“Remove”** button there is additional visibility info about your announcement. You can see a star in the super tutors announcement. The star is there to capture attention, so you won’t miss any important announcements. The announcements with 3 stars and colored backgrounds are made by Oulu university personnel in charge of the Proko project and often contain important messages.

11 Change language and Privacy info

- From the ***“Change language”*** you can select Finnish or English. For master’s degree users the default language is English. For everyone else the default is Finnish. You can change the language as you please.
- The language settings have only effect to the text outside of the guidance cards. The text written in the card is provided as is, no translation. For international users have been created their own cards for this reason.
- The Privacyinfo is translated to English too. Take notice that the English version is an **unofficial translation**.
